Title: Harry Potter and the Goblet of Fire (Harry Potter, #4)
Author: Mary GrandPre, J.K. Rowling

SUGGESTED BOOK

By kenton.kuphal
rating: 3

As fascinated as my daughter (who this book was read aloud to) is by all things wizard, Rowling has a tendency to be wordy when incorporating a considerable amount of information along with drama into scenes. These passages turned off my 7-year old. I found them a tad dry myself, but I'm a stubborn reader and refuse to skip over anything. This wasn't the case so much with the first two Harry Potter installments, but the end of #3 dragged somewhat with considerable explaining dialogue. Still, it's one thing for a book to have an excessively wordy ending, by which point you're fully committed to making it to the finish line. It's another thing to start off in such a manner. Glancing at other reviews it seems my wife, my daughter and I are not the first ones to find the World Cup scene in Goblet of Fire rather tedious. Eventually it picks up steam. Things also start taking a turn for the dark & grown-up in this installment of the series, so it will be the last one I read aloud to my daughter. Perhaps she will return to it on her own some day. As for me, I'll probably just watch the movies to see how it all turns out for Harry and company. The onscreen adaptations do a pretty good job of leaving out Rowling's explanatory rambling and cutting to the chase. I hear she's doing some Hogwarts based screenplay writing now. I suppose she has a pretty good idea by this point of what to include on paper to give readers the richest experience, and what is best left on the editing room floor to keep fidgety viewers on the edge of their seats.

By kenton.kuphal rating: 3
